

Lowell Housing Authority
Heat, Smoke, and Carbon Monoxide Detector Information

The Heat, Smoke and Carbon Monoxide Detector have been installed in your apartment for your safety. Please be advised that any tampering with these systems by disconnecting wires, damaging, or removing these detectors, is a serious violation of your lease. The Lowell Housing Authority will not tolerate any instance where a tenant is responsible for vandalizing these systems. If vandalism is found, the Lowell Housing Authority will aggressively pursue termination of your tenancy.

If a Heat, Smoke or Carbon Monoxide Detector in your unit is found to be damaged or missing, you will be responsible for the replacement costs. You will also be charged with the labor associated with this replacement.

If you experience a problem with any of these detectors or the main system, you should report this information immediately to the Property Manager or contact the Maintenance Department.
